Journal of Obstetrics and Gynaecology (1988) 8, 389–400

Index

Volume 8/1987–1988

Abortion and disseminated intravascular coagulation associated with infection due to ovine abortion agent, 36
Abortion, legal in nulliparae, pretreatment of the cervix with 9-deoxy-16, 16-dimethyl-9-methylene-prostaglandin E_2 (meteneprost) vaginal pessaries before first trimester, 210
Abortion, gemeprost and the termination of abnormal intra-uterine pregnancies, 215
Abortion, hidden, with uterus didelphys and double vagina, 62
Abortion, second trimester, using laminaria tents followed by gemeprost for missed abortion and for legal abortion, 113
Abortion, septic, 371
Abortion, the use of vaginal prostaglandins for the induction of mid trimester, S28
Abortion, vaginal administration of prostaglandins for induction of first trimester, S23
Abradul, endometrial biopsy with—an alternative to dilatation and curettage, 337
Aci-jel, the effect on cervical pH, 360
Acquired immunodeficiency syndrome, seminal plasma effect on lymphocyte response to viral infection, 92
Adenocarcinoma of the cervix, insidious presentation of, 363
